

## PEDESTAL FANS TVE 16 / TVE 18 S

Powerful cooling up to speed

### Shut out the heat in next to no time

Calculated with a cool head, the super-slim pedestal fan TVE 16 / TVE 18 S provides cooling on hot summer days. Just coolly ban the suffocating heat from the house.

The choice is yours! The conventional, white TVE 16 blend in beautifully and unobtrusively with almost every living environment. The black TVE 18 S on the other hand easily takes centre stage and, with its design, can only leave a good impression.

Whichever colour you choose ... The pedestal fans of the TVE series are ready for use in a breath and extremely versatile. Simply set the device up wherever cooling is required, plug in the power cable and revel in the natural refreshing breeze that just glides over your skin.

### Also suitable for use in office spaces and living rooms

With 50 watts of power and three ventilation intensities the TVE 16 / TVE 18 S is up to the requirements presented by larger rooms. At moderate temperatures the energy-saving speed level 1 should be sufficient to provide some soothing refreshment and a refreshing breeze. With increasing temperatures of about 30 degrees plus, speed level 2 provides immediately noticeable cooling.

**Application tip:** In the evening the air that has been heated up all day can quickly be banished from your flat by means of speed level 3. Simply open the window and blow the air out with maximum power in next to no time.

### It is the ultra-silent operation that makes the difference

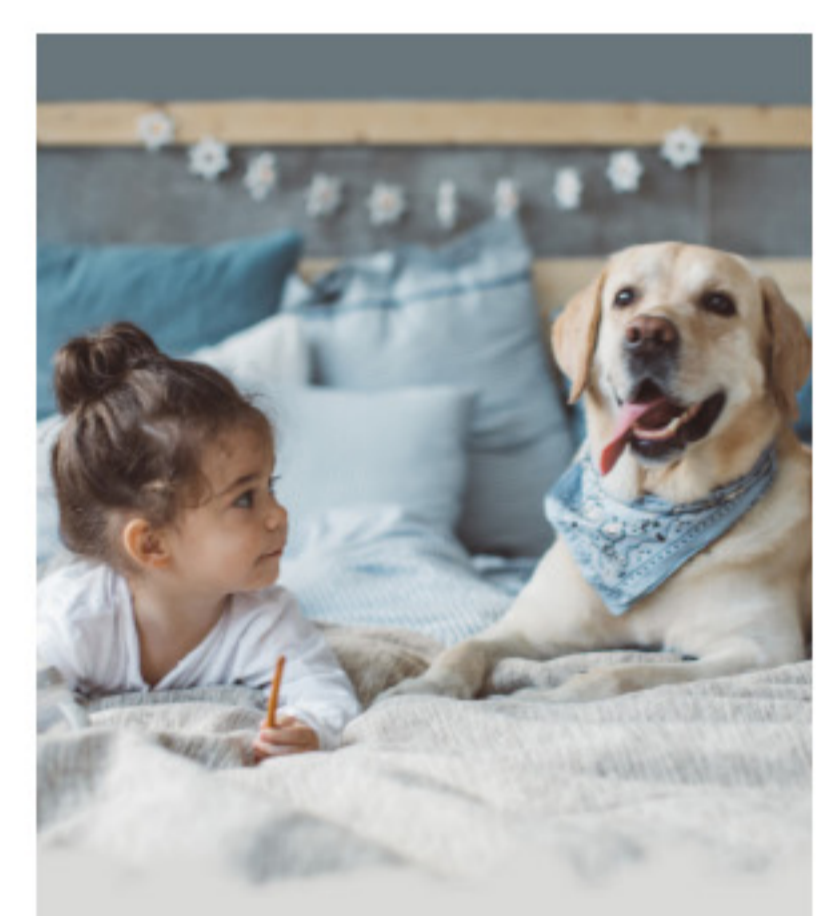

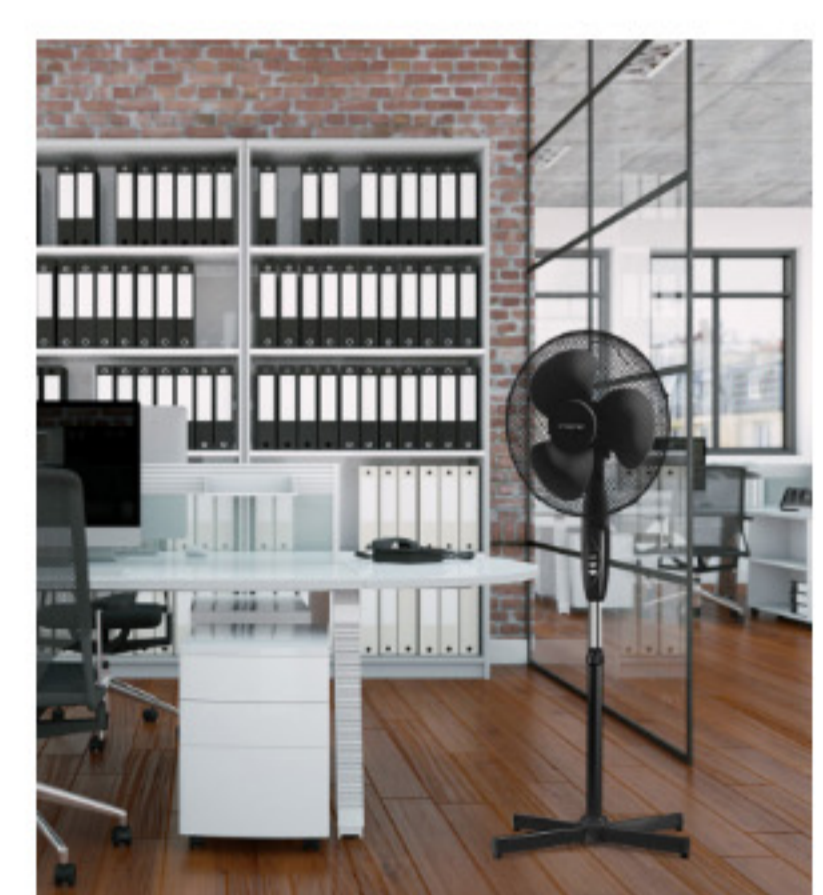

#### The low noise emission renders the device suitable for use in the bedroom

Owing to perfectly calibrated fan blades and smooth running characteristics the TVE 16 / TVE 18 S generates only a very little noise at the lowest speed level. Thereby this fan commends itself for the cooling which promotes sleep in the noise-sensitive bedroom.

#### Refreshment without fail

#### Stability and safety is a major priority

The star-shaped metal base ensures a secure footing of TVE 16 / TVE 18 S. The three fan blades are enclosed by a removable, close-meshed, yet easy-to-clean protective metal cage. Accordingly, even the most curious of children's hands or animal paws cannot accidentally reach into the moving fan blades. Moreover, the pedestal fan is protected against overheating.

### Special equipment features of the TVE 16 / TVE 18 S

At the push of a button the TVE 16 / 18 S starts to automatically oscillate by 90° to ensure an optimum air distribution. A site change can be accomplished quickly and easily thanks to the convenient carrying handle.

The inclination angle of the fan head can be adjusted by up to 30°.

You can choose from 3 speed levels.

Infinitely variable height adjustment between 110 and 129 cm and automatic 90° oscillation with switch-off function.

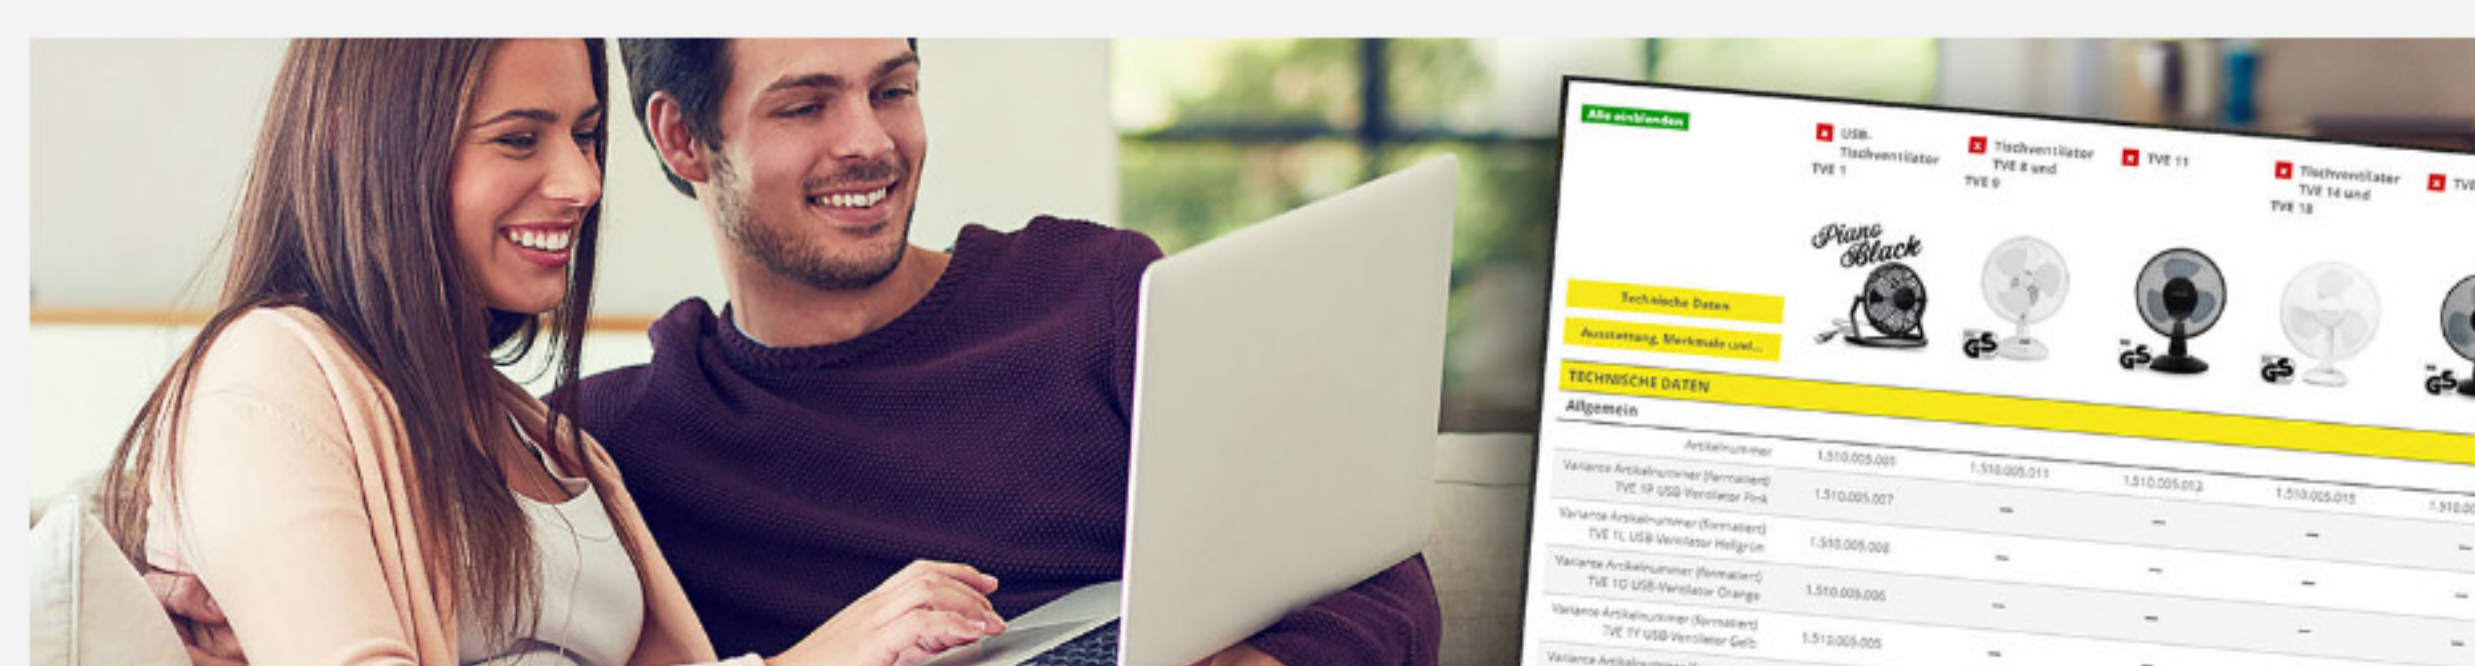

### Pleasantly cool breeze where it is needed ...

Keep your cool at work. A fresh breeze can promote motivation and productivity.

Just ban the heat from your bedroom. The ultra-silent operation of the TVE 16 / TVE 18 S make sure you can drift off to sleep accompanied by a refreshing breeze.
