

## PEDESTAL FAN TVE 25 S

Fresh air and perfect cooling reliably ensured in both interior spaces and outdoor areas

### A breath of fresh air reaching into every corner

As early as in spring, at the latest however in early summer, when temperatures rise, your home or office often becomes unpleasantly hot. Adding to this is the stuffy air that quickly becomes a physical strain. Once the heat has taken hold of us, even staying on the balcony or terrace becomes almost unbearable. One thing to provide relief is a refreshing breeze. The high-performance fans of the TVE series provide welcome cooling both indoors and outdoors.

The high-quality pedestal fan TVE 25 S even gives the cold shoulder to record summer highs. This is ensured by 3 fan stages, 40 watts of power and its fan blades with an overall diameter of 40 cm. A good deal of surface area for a great deal of wind!

### The TVE 25 S scores with its variable air flow control

Immediate cooling, indirect refreshment or consistent air circulation reaching even the most remote corners: Adjust the air flow of pedestal fan TVE 25 S to meet your individual requirements. To ensure well-aimed ventilation the fan head can be inclined by up to 30°.

With the on-demand 80° oscillation the air is distributed evenly in the room. Moreover, the height of the pedestal fan can be steplessly adjusted ranging between 110 cm and 130 cm. For quick cooling wherever it is needed. Naturally, the fan blades are enclosed by a robust metal cage for protection.

### Easy handling: remote control and timer function

Marked comfort leaving more time for the things that really matter

With the pedestal fan TVE 25 S in classic white you can lean back and relax. The fan can be switched on and off conveniently via the infrared remote control. The preferred fan stage and timer function can also be activated using the handy remote control.

After a programmable number of hours the device is switched off automatically as needed. You can choose from a time span ranging between 1 and 7 hours. Both the selected fan stage and the number of hours of the activated timer will be displayed on the control panel. To grant you the perfect overview!

### Can you hear the difference?

Whisper mode for you to relax to the max. For use in the bedroom, too

High performance and peaceful tranquillity must not be mutually exclusive. The pedestal fan TVE 25 S is delightfully quiet during operation, the noise level reaches maximally 57 dB(A). Hence, the TVE 25 S can also be recommended for night-time operation in the bedroom.

### Flexible application for the desired cooling in all rooms

Compact, space-saving, handy dimensions

Its light weight of only 5 kg, the solid base and its convenient carrying handle render the TVE 25 S a flexible all-rounder.

### Special equipment features of the TVE 25 S

The inclination angle of the fan head can be adjusted by up to 30°.

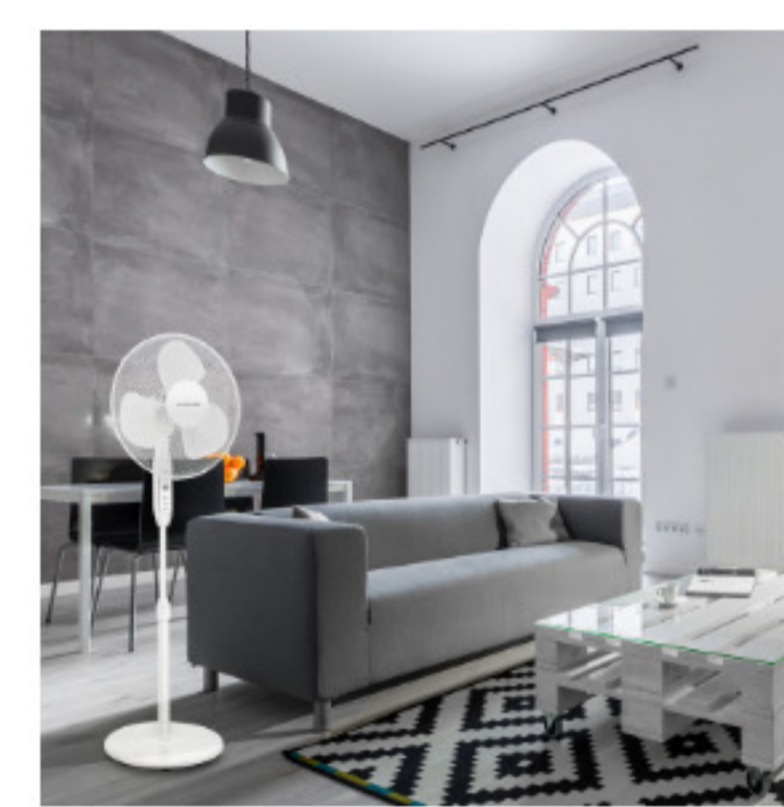

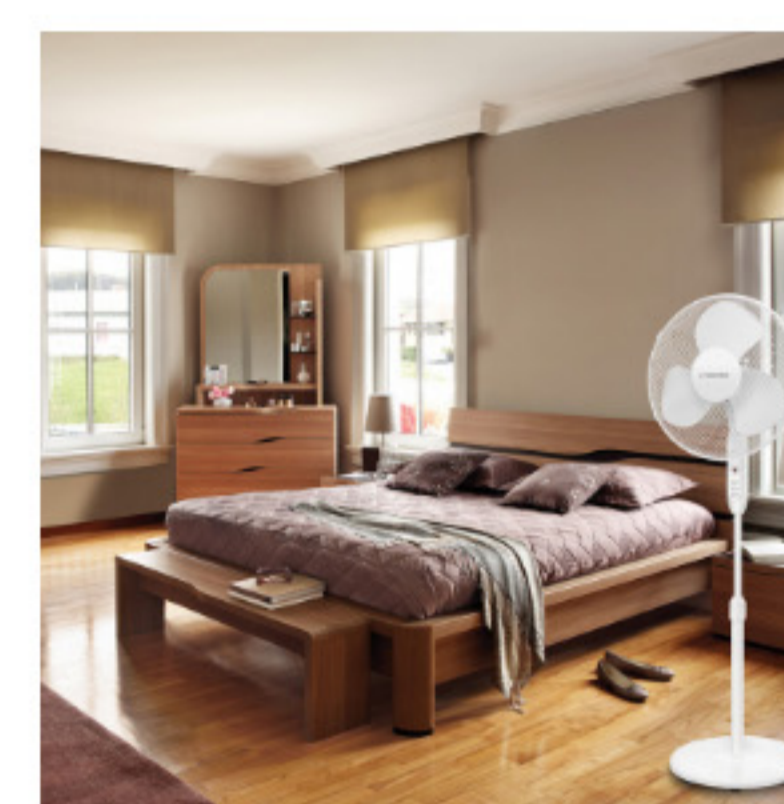

The TVE 25 S comes with 3 speed levels and a timer function. The settings can easily be controlled via the remote control or the control panel at the fan head.

Flexibly adjustable: Infinitely variable height adjustment between 110 and 130 cm.

At the push of a button the TVE 25 S starts to automatically oscillate by 80° to ensure an optimum air distribution. A site change can be accomplished quickly and easily thanks to the convenient carrying handle.

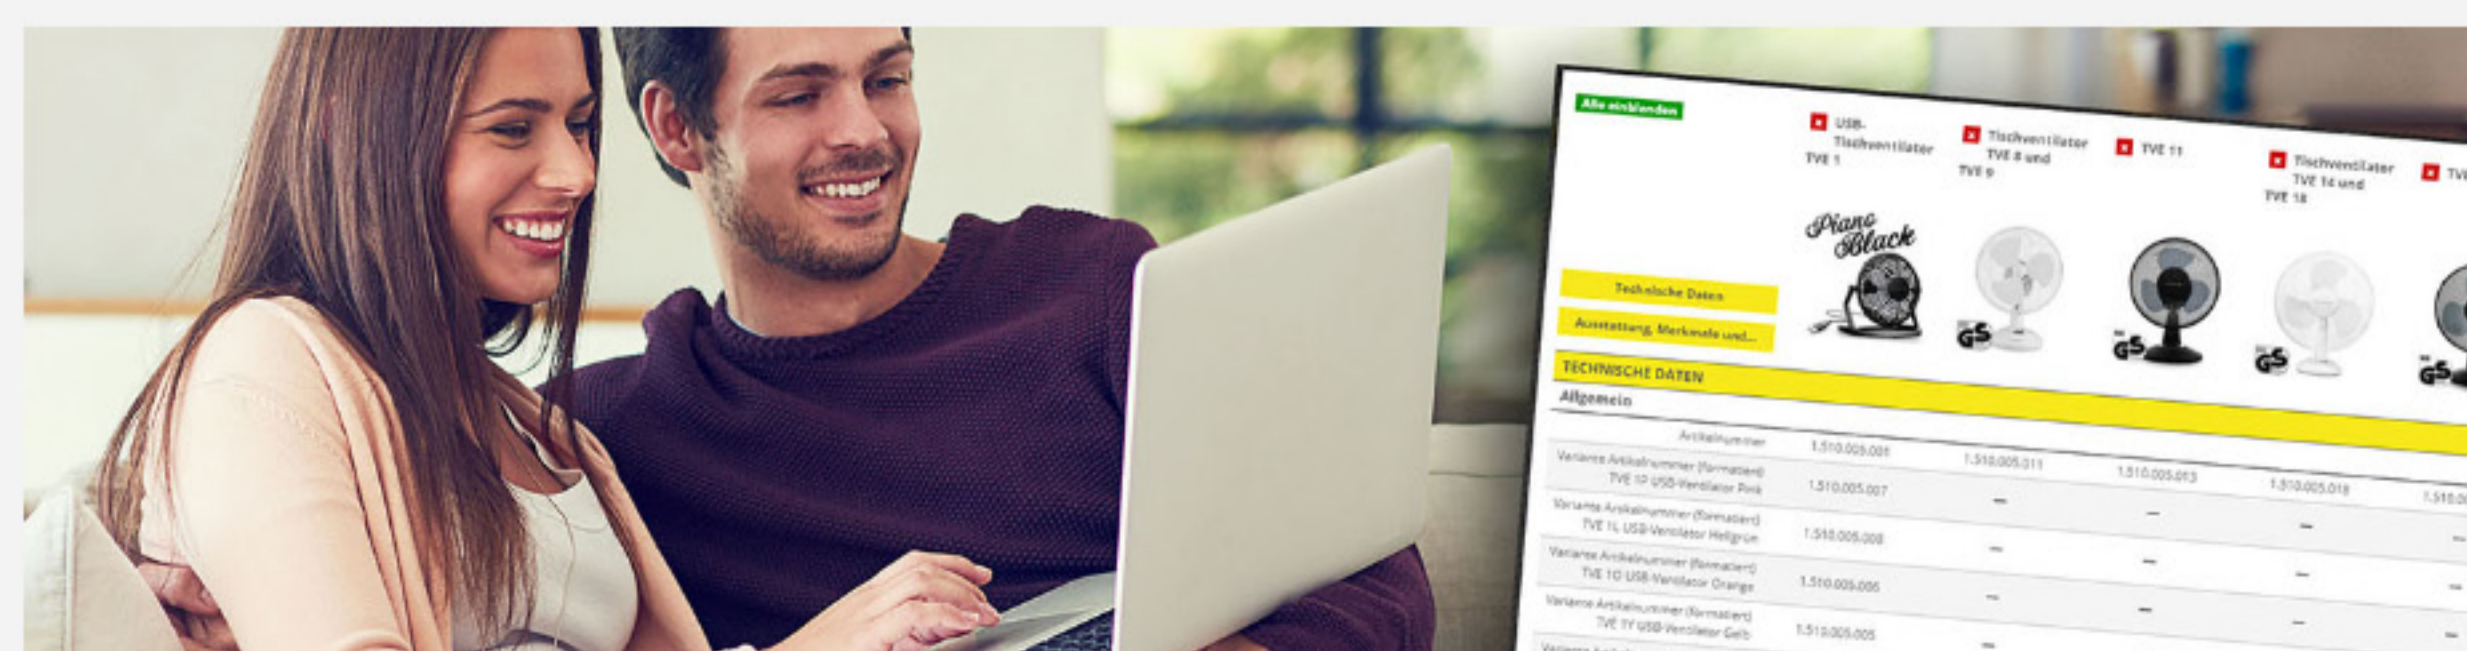

### For an agreeably fresh breeze wherever it is needed ...

Fresh air in the office increases your well-being and productivity.

A pleasant indoor climate is ensured by reliable ventilation: The TVE 25 S is extremely versatile.
