

CLASSIC VINO PASS-THROUGH

Color	Black RR33 RAL9005
Product number	746022
LVI Code	7820391
EAN Code	6410457460229
Weight	Gross: 1.125kg, Net: 0.696kg

Description: For plain standing seam roofs or felt roofs (if retrofitted). Can be installed on roofs with pitches between 1:5 (11.5 degrees) and 57 degrees, as its collar is steeper than that of previous models—enabling installation on steeper roofs compared to the original VILPE Classic pass-through. The stylish and angular VILPE Classic Vino Pass-Through is also more elegant on a linear sheet metal roof than its predecessor. The seal on the bottom of the pass-through guarantees a fully waterproof end result, and is attached to the bottom of the flange.

Installing the VILPE Classic Vino Pass-Through is simple and easy: the kit includes all installation materials and clear instructions. The pass-through enables the installation of VILPE roof fans, exhaust pipes, ventilation pipes and antenna pass-throughs onto the roof. Designed for Ø 75, 110, 125 or 160 mm pipes. Sealing compound (not incl.) required for installation on felt roofs.

Contents: Pass-through, underlay ring, screws, installation instructions.
