

TABLE FAN TVE 8 / TVE 9

As refreshing as a natural breeze

25 W
Ø 23 cm

2 Speed Levels

90° Oscillation

30° Inclination

Silence

A wind force to be reckoned with and on budget – stimulating for chilled calculators

When summer is turning up the heat, the table fan TVE 8 / TVE 9 provides soothing refreshment and a light breeze at low cost. Table fans Without any installation effort. Simply set the device up, plug the power cable in and revive your senses with a boost of freshness emitted to the immediate surroundings at the push of a button.

Thanks to its compact dimensions the handy fan can be carried along wherever high temperatures have become a source of discomfort. Be it at the office, workplace or at home beside the sofa: The TVE 8 / TVE 9 is light, packed up in a breath and easy to transport.

Maximum refreshment, low consumption

With its 25 watts of power the TVE 8 / TVE 9 brings noticeable refreshment in form of a fresh breeze just gliding over your skin. The ventilation intensity can be adjusted in two stages to match your own need for refreshment as well as the temperatures. Normally, speed level 1 is sufficient to make it through the day without breaking a sweat. When the thermometer climbs to temperatures of 30 degrees and above, the stronger speed level 2 supplies an adequate gust of wind.

Regulate the air current as desired. In order to direct the air current precisely you can individually adjust the inclination angle of the fan head. The automatic 90° oscillation on the other hand distributes the cooling air flow evenly in the room.

Economical, naturally: The TVE 8 / TVE 9 operates according to a natural refreshment principle. It is not the room air that is cooled. Instead generated air current provides noticeable cooling directly on our skin. As agreeable as natural wind and more economical than any other cooling solution.

It is the ultra-silent operation that makes the difference

The low noise emission renders the device suitable for use in the bedroom

Owing to perfectly calibrated fan blades and smooth running characteristics the TVE 8 / TVE 9 generates only a very little noise at the lowest speed level. Thereby this table unit commends itself for the cooling which promotes sleep in the noise-sensitive bedroom.

Better safe than sorry

Unpack, plug in and enjoy the breeze

The TVE 8 / TVE 9 can also impress in terms of safety. The table fan comes with non-slip, secure footing that prevents tipping over. The fan blades are surrounded by a removable, close-meshed, yet easy-to-clean protective metal cage. This prevents you from inadvertently reaching into the moving fan blades during operation. The integrated overheating protection of the electric motor ensures automatic switch-off in case of excessive stress.

Special equipment features of the TVE 8 / 9

At the push of a button the TVE 8 / 9 starts to automatically oscillate by 90° to ensure an optimum air distribution. A site change can be accomplished quickly and easily thanks to the convenient carrying handle.

The inclination angle of the fan head can be adjusted by up to 30°.

Secure footing to prevent tipping over, incl. control panel.

Metal grilles protected at the front and back.

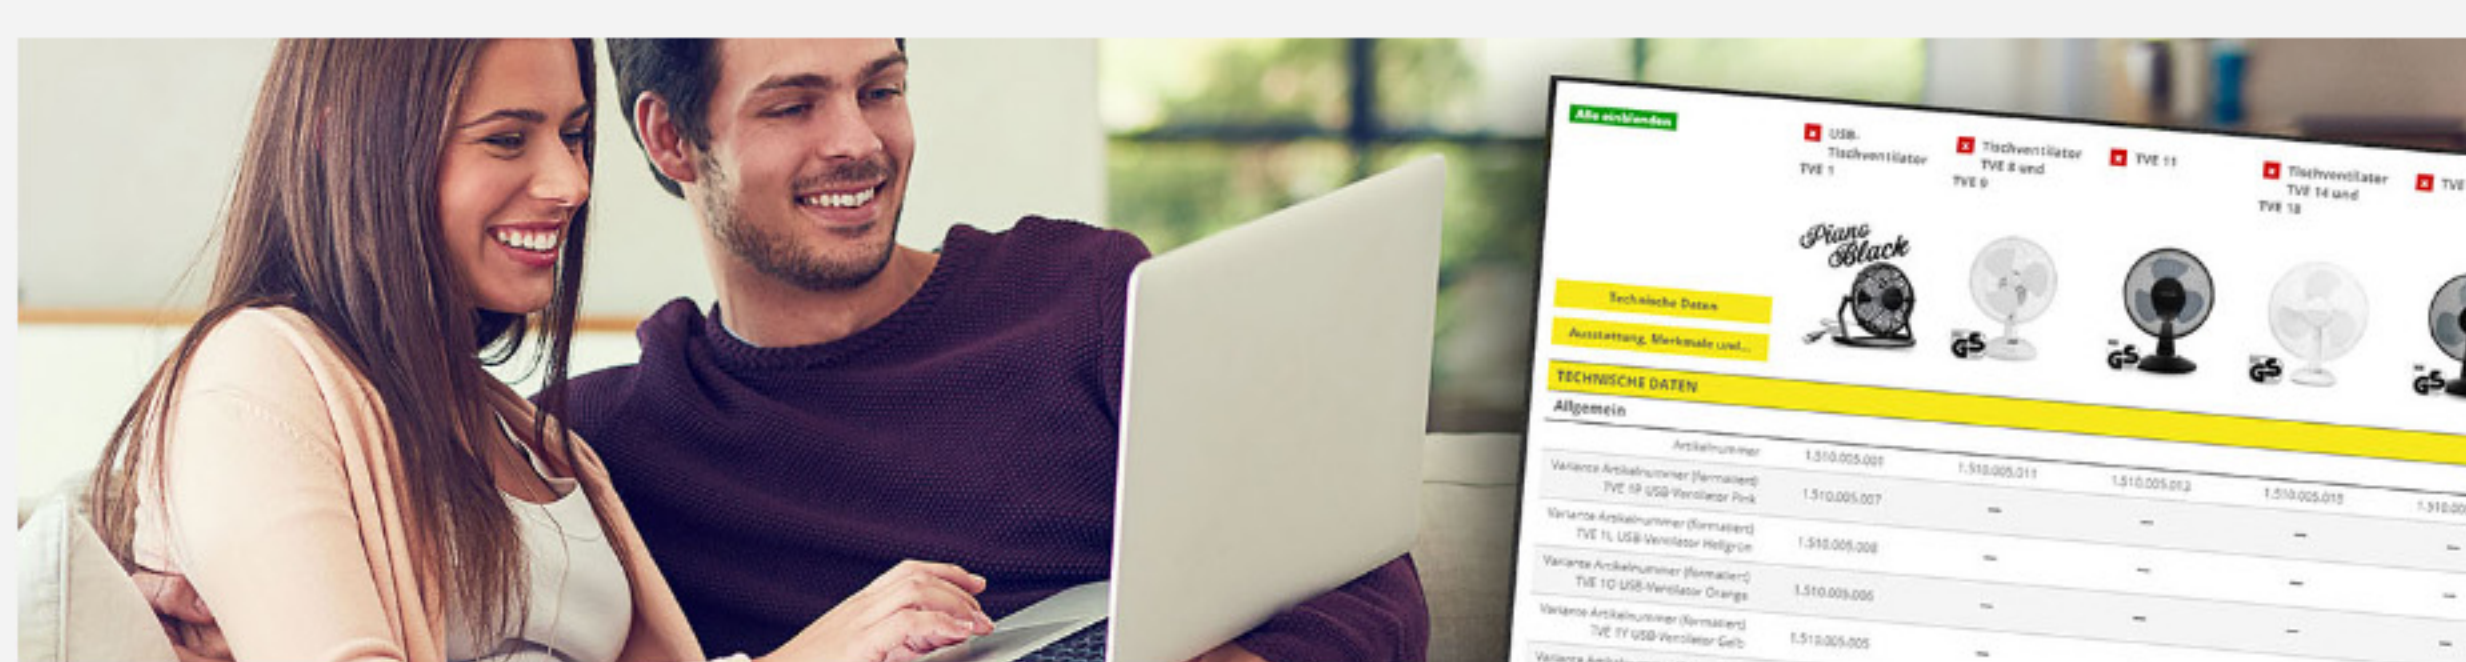

For an agreeably fresh breeze wherever it is needed ...

Thanks to its compact dimensions the TVE 8 / TVE 9 can also be positioned on narrow sideboards or in shelves.

Keep your cool even at high temperatures and enjoy the pleasant breeze blown through any of your rooms by the TVE 8 / TVE 9.
